Healthcare Map™

MapEnhance expands our platform capability, allowing users to quickly leverage the depth and breadth of Komodo's Healthcare Map™. Along with data provided by Komodo-built enhancements and our third-party data partners, MapEnhance adds layers of nuance and draws connections between specific treatment pathways and outcomes. Now, high-fidelity insights and seamless, flexible linkages across internal sources provide a deeper look into the patient journey than ever before.

MapEnhance combined with our Healthcare Map offers:

- **High-quality data foundation** — the largest longitudinal source of U.S. patient journeys, including both open and closed patient records
- **Breadth of sources** — specialty datasets highly curated by Komodo and our partner sources, all seamlessly linked
- **Analysis-ready** — data products that are pre-integrated and fit for purpose upon delivery
- **Technology-first approach** — software-enabled and linked to Komodo's applications suite

KOMODO-BUILT DATA ENHANCEMENTS

Komodo-built data enhancements have been **developed, cleaned, and analyzed** by our leading data scientists to deliver the highest-quality "fit-for-purpose" data products. We rigorously **de-duplicate, clean, format, standardize, and normalize the data** for unprecedented dimensionality. Seamlessly layer multiple datasets onto our industry-leading Healthcare Map via a single contract for faster time to insights.

Komodo's data enhancements offer deeper insights into:

CLINICAL OBSERVATIONS
Patient-derived clinical variables, including height, weight, BMI, vitals, and more

LAB RESULTS
Covering hundreds of laboratory tests, from routine to highly specialized

PATIENT INSURANCE
Assignments that identify Mx and Rx benefits including primary and secondary payers

MORTALITY INSIGHTS
Patient-aligned mortality derived from obituary and state-reported sites

RACE & ETHNICITY
Self-identified R&E/ demographics data for 200M+ patients

ABOUT KOMODO HEALTH

Komodo Health is a technology platform company creating the new standard for real-world data and analytics. We pair the industry's most complete view of patient encounters with enterprise software and machine learning to connect the dots between individual patient journeys and large-scale health outcomes. Across Life Sciences, payers, providers, and developers, we help our customers unearth patient-centric insights at scale. We marry clinical data with advanced algorithms and AI-powered software solutions to inform decision-making, close gaps in care, address disease burden, and help enterprises create a more cost-effective, value-driven healthcare system.
